

2017 Central NM Science & Engineering Research Challenge – ISEF Qualifiers, Student Observers, Alternates

Exhibit Number	Project	Name(s)	Sponsor	School
1909	Impacts of Altered Precipitation Regimes on the Distribution of Dryland Soil Nitrogen	Jarek Kwiecinski	Michael Harris	Albuquerque Institute of Math & Science
2011	Utilization of the Spidron System for Generating Force Absorbing Structures	Skyler Hughes	Michael Harris	Albuquerque Institute of Math & Science
2306	Effects of Caffeine on Spreading Depolarization	Rusty Ludwigsen	Jennifer Miyashiro	Rio Rancho High School
2403T	A Comparative Study of the Anti-Microbial Effects of Transition Metal Nanoparticles	Fernando Guerrero, Richard Romero	Mark Walker	Early College Academy
